\$253,415 and up	52.00%	26.00%	36.54%	47.92%

1 Marginal tax rate for dividends is a % of actual dividends received (not grossed-up amount).  
2 Marginal tax rate for capital gains is a % of total capital gains (not taxable capital gains).  
3 Paid by public corporations or CCPCs out of business income taxed at the general corporate tax rate.  
4 Where dividend tax credits exceed the tax otherwise payable on the dividends provincially or federally, rates do not reflect the excess credit that would be available to offset tax payable on other sources of income.  
5 The federal basic personal amount of \$14,538 is increased to \$16,129 for those with income below \$177,882. It is incrementally reduced for income between \$177,882 and \$253,414 with complete clawback for income over \$253,414. The above tax rates include the additional basic personal amount and clawback.

## Corporate tax rates<sup>6</sup>

	General*	Small Business (CCPC)	Business Limit	Investment Income	Canadian Dividends	Gross Capital Gains
Federal	15.00%	9.00%	\$500,000	38.67%	38.33%	19.34%

Combined	31.00%/30.00%	10.00%		54.67%/53.67%*	38.33%	27.34%/26.84%*

\* The general corporate tax rate applies to active business income in excess of the business limit. Investment income includes interest, rent, royalties, and dividends (other than taxable Canadian dividends).  
\*The general corporate tax rate provincially will decrease from 16% to 15% effective July 1, 2025 resulting in hybrid rates throughout the year as shown above. The provincial business limit provincially will increase from \$500,000 to \$600,000 effective July 1, 2025.
